

\$NOEX

WHITEPAPER

ABSTRACT

\$NOEX is a native meme token on the Pulsechain network, designed with the philosophy of "No Expectations." This white paper outlines the tokenomics, distribution, and vision for \$NOEX, emphasizing community collaboration and a commitment to a fun and engaging ecosystem.

INTRODUCTION

\$NOEX is a decentralized, community-driven meme token on the Pulsechain blockchain. With a total supply of 1 Billion tokens, \$NOEX aims to create a lighthearted and inclusive space for meme enthusiasts.

TOKENOMICS

- ****35% LP and Burn:**** To ensure liquidity and scarcity, 35% of the total supply is locked in Liquidity Pool (LP) and burned permanently.

- ****Distribution to Meme Communities:**** 10% is distributed among \$BOBO, \$PEPE, \$WAAR, \$BOOB, and \$HOA meme coin communities on Pulsechain, fostering cross-community collaboration.

- **Burn Forever:** An additional 10% of the supply is burned forever, contributing to deflationary mechanisms.
- **Community Ownership:** 30% is designated for community ownership, allowing active participation and governance.
 - **OA (No Expectations) Ownership:** 15% is reserved for the Origin Address, aligned with the "No Expectations" philosophy.
